The scenario changes daily. One day it’s a virtual learning environment. The next it’s face-to-face. Some days it’s hybrid. And, school administrators face the challenge of keeping the communications lines open to staff, students, parents, and board members.

If you’re in that position, you know that proper communication of information is more important than ever.

AgendaManager can help you by keeping all your meeting agendas, minutes, notes and attachments housed in one place, no matter what direction your school goes. It’s the perfect solution regardless of how you choose to meet. VIRTUAL, IN-PERSON, HYBRID.

AgendaManager is now available to your district at NO COST for the rest of the 2020-2021 school year.
