About the Summit…

Sponsored by the Pennsylvania Principals Association (PPA) and the Pennsylvania Association of School Administrators (PASA), the PA Educational Leadership Summit brings together school district administrators from across Pennsylvania to hear from well-known speakers and learn about initiatives and success stories in public schools across the Commonwealth. Individuals and teams of administrators use this conference as an opportunity to both learn and plan for the coming school year—and beyond—providing an excellent opportunity for you to share the products and services that will meet their needs!
