

Dear Colleagues,

As Superintendent of Salisbury Township School District, I am deeply committed to educational leadership, innovation, and collaboration. Over the years, I have served in a variety of roles—teacher, instructional coach, assistant principal, assistant superintendent, and associate superintendent—all of which have shaped my perspective and strengthened my dedication to supporting students, educators, and school leaders. Within my district, I co-led the development of our [Profile of a Graduate and Learning Beliefs](#), ensuring that every student is prepared for success beyond the classroom.

Beyond my district, I am passionate about sharing knowledge, mentoring future leaders, and contributing to the broader educational community. I serve as an adjunct professor for principal and superintendent preparation programs at Moravian University, Cedar Crest College, and Carbon Lehigh Intermediate Unit, helping to prepare the next generation of educational leaders, both principals and superintendents. In 2019, I was honored to receive the PASA Award of Instructional Leadership for my commitment to advancing educational practices. I was honored to receive the PASA Women's Caucus Wanda McDaniel Award in 2014.

I have been active and engaged in leadership in PASA for over a decade, currently serving on the Board of Governors, Elections Committee, Professional Development Committee, and PLGIT representative. My previous leadership roles include serving as Treasurer, two-term President of the Women's Caucus, and six years on the Professional Development Committee. I have also served on ad-hoc groups and the Bylaws committee.

I believe in the power of collaboration and continuous learning, which is why I actively contribute to PASA through multiple avenues. I have contributed many articles to the PASA Newsletter, sharing thought leadership, strategies, and reflections to support and inspire school administrators across the state. I attend and present at PASA events each year, sharing insights and best practices on key leadership topics. Some of my recent presentations include:

- **PASA/PSBA Conference 2:** *Four Steps to Building Stronger Board and Superintendent Relationships*
- **PASA/PSBA Conference:** *Teamwork Makes the Advocacy Dream Work*

- **PASA Leadership Forum:** *Collaborate with Your IU to Engage Stakeholders: Leveraging Survey and Focus Group Data to Inform Decisions*
- **PASA Women's Caucus** *From Paperwork to Productivity: How AI Can Enhance the Teacher Observation Process*

Additionally, I am running for PASA President-Elect because I believe in the strength of our collective leadership. My vision is to empower school leaders, foster professional learning opportunities, and advocate for policies that support and enhance public education in Pennsylvania. I would be honored to serve and work alongside you in shaping the future of PASA.

I ask for your vote and your support. Together, we can continue to strengthen educational leadership across Pennsylvania.

Lynn

Lynn Fuini-Hetten
